## HOUSEHOLD INCOME CALCULATION

1. Reproduce the “Household Income Survey”. A sample is printed on the other side of this sheet of paper.
2. Distribute the “Household Income Survey” with your church bulletin on three consecutive Sundays.
3. At an appropriate time during worship ask those present to check the box that most closely approximates their total gross (before taxes) Household income.

Note: a) Only one person should respond for a household unit.

b) If a person of a household/family worships on all three Sundays – they should only respond to the “Household Income Survey” once.

c) Encourage those completing the “Household Income Survey” to be as honest and candid as possible. Emphasize that this information will be handled confidentially.

4. The “Household Income Survey” should be folded and collected. Perhaps, the easiest way is to place it (folded) on the offering plate.
5. After the third Sunday – tally the results, using the sample “Household Income Survey” on the back of this sheet of paper; indicate the number of Household/Family Units earning each of the income categories.
6. Return this tally, not all the individual forms, to the Synod Staff person working with your congregation.
